SUMMARY

I have strong programming and software development skills. I am skilled in C, Java (Core and Advanced), and Python. I have hands-on experience in web development using HTML5, CSS, and JavaScript. I also work well with databases like MySQL, SQL Server, and DBMS. My toolkit includes development environments and tools such as NetBeans, Eclipse, Visual Studio Code, IDLE, and Turbo C++. Additionally, I am improving my expertise by learning data analysis and visualization tools like Power BI and Tableau Microsoft Excel. I have recently developed an interest in integrating AI tools into various areas, including programming, web development, digital marketing, and creating multimedia content such as images, videos, and animations.

PROJECTS

Automobile Website

Technologies: HTML, CSS, JavaScript, React, Tailwind CSS

- Developed a responsive automotive website showcasing sports cars and motorcycles.
- Implemented category-based filtering to allow users to explore vehicles by type.
- Designed a clean, modern, and mobile-friendly UI using React and Tailwind CSS.
- Enhanced site interactivity and performance through optimized JavaScript components.
- Strengthened front-end development and responsive design skills through this project.

Blogsite Website

Technologies: Convex (Backend), Vite (Frontend), JavaScript, React

- Developed a full-stack blogging platform enabling users to write, publish, like, and comment on blogs.
- Integrated authentication, routing, and real-time database interactions using Convex backend.
- Designed responsive UI components to ensure a seamless user experience across devices.

DBMS -Quiz Application

Technologies: Java, JDBC, MySQL, MySQL Workbench

- Designed and developed a console-based quiz system as part of the DBMS curriculum.
 - Implemented user authentication and score tracking using JDBC for database connectivity.
 - Linked application tables with MySQL Workbench to manage and view user and quiz data.
 - Created a registration and login system that verifies users before starting the quiz.
 - Strengthened understanding of relational databases, SQL queries, and Java-MySQL integration.
-

EDUCATION

Bachelor of Technology in Computer Engineering
Shah and Anchor Kutchhi Engineering College

Aug 2023- May 2027

- Currently maintaining a 8.4 CGPA average through Semester 4 at a well-renowned engineering college in Mumbai.
-

ADDITIONAL INFORMATION

Programming & Development

- Languages: C, Java (Core & Advanced), Python
- Web Development: HTML5, CSS, JavaScript, React.js, Next.js, WordPress, JQuery, Rest API
- Databases: SQL Server, MySQL, DBMS (pursuing)

Data Analysis & Technical Tools

- Power BI, Tableau, Microsoft Office (Word, Excel, PowerPoint)

Soft Skills

- Teamwork, Excellent verbal & written communication, Quick learner

Platforms & IDEs

- NetBeans, Eclipse, Visual Studio Code, IDLE, Turbo C++, Canva
